Commuter Update for State Route 23 Project at Olsen Road

Thousand Oaks- The California Department of Transportation (Caltrans) is currently working to make improvements on the northbound SR-23 off-ramp at Olsen Road. The off-ramp will be restriped for a free right turning lane. Traffic signal work is continuing, with the right turn arrow staying on continuous green except when pedestrian crossing has been activated. Induction loops are to be installed. Striping work is also scheduled for eastbound Olsen Road. Modifications are expected to be completed by the end of May 2007, however, improved traffic flow is anticipated to begin before then.

Security Paving is the contractor on this \$ 65 million project, which will add a new lane in each direction on SR-23 from US 101 to Los Angeles Avenue, estimated for completion in summer 2010. Motorists are reminded to “**Slow For The Cone Zone**”
